TECHNICAL DATA SHEET

GLASS FILTRATION MANIFOLDS

3-place filtration manifolds, also available with 500 ml
or 1,000 ml funnels (see accessories; price on request)
Made of borosilicate glass
Suitable for quality control in the food, chemical and pharmaceutical industries, and for the analysis of all types of water.
Fully equipped with glass filter holders for 47 mm membranes
Control valves at each position allow independent operation
or operation in series via a common drain.
Vacuum connection via 10 mm hose barb

Model	Model	Funnels	Height	Reference
Glass	Glass	300 ml	≈ 400 mm	**067.003-V**

ACCESSORIES AND SPARE PARTS

Description	Reference
Graduated funnel, 300 ml	**067.001**
Graduated funnel, 500 ml	**067.009**
Graduated funnel, 1 litre	**067.018**
Base with filter plate	**067.005**
